CHUTE MIDDLE SCHOOL

Sharon Stephens

10th Anniversary

DEDICATION . . .

This is the tenth anniversary of Chute Middle School. We take pride in dedicating this yearbook to Dr. Oscar M. Chute, the man for whom our school was named.

Dr. Chute was born in Salem, Massachusetts. He served as superintendent in Litchfield, Massachusetts. When he was offered a job as superintendent in Evanston, he decided to accept it because it was a good opportunity to further his involvement in education.

There were many changes during the twenty years of his administration. The most important change was the decision to totally integrate Evanston's school system. In addition, many special educational programs were developed. These included programs for the blind, deaf, handicapped, and for people with speech related problems. During this period, there was a large increase in District 65 enrollment.

Dr. Chute is currently focusing his attention on pre-school children since he feels that children belonging to this age group should receive particular attention before entering the primary grades.

We sincerely thank him for his serious dedication to education during his lifetime.
